About Us

Nexpo Conversion (Pvt) Ltd., was established in 2014 and specializes in formulating the finest of natural extracts sourced and manufactured ethically and sustainably from the tropical paradise island of Sri Lanka.

Over the past few years, we have progressively grown our production facilities, honed our skills and partnered with sought out members of the farming community. Therefore, enabling us to improve and maintain the high standard of our products.

At Nexpo, we use 100% Natural and GMO-Free ingredients to manufacture our products in our internationally certified production facility. Our state-of-the-art production facility follows a food safety and quality management system that is certified with IFS Food, ISO 22000:2018 and HACCP, with stringent quality control points. Our products are EU - Organic, USDA - NOP, JAS Organic, Vegan, Kosher and Halal certified. We have designed our production process such that it ensures the nutritional value of the ingredients used are preserved, to give our customers the best and highest quality end-products.

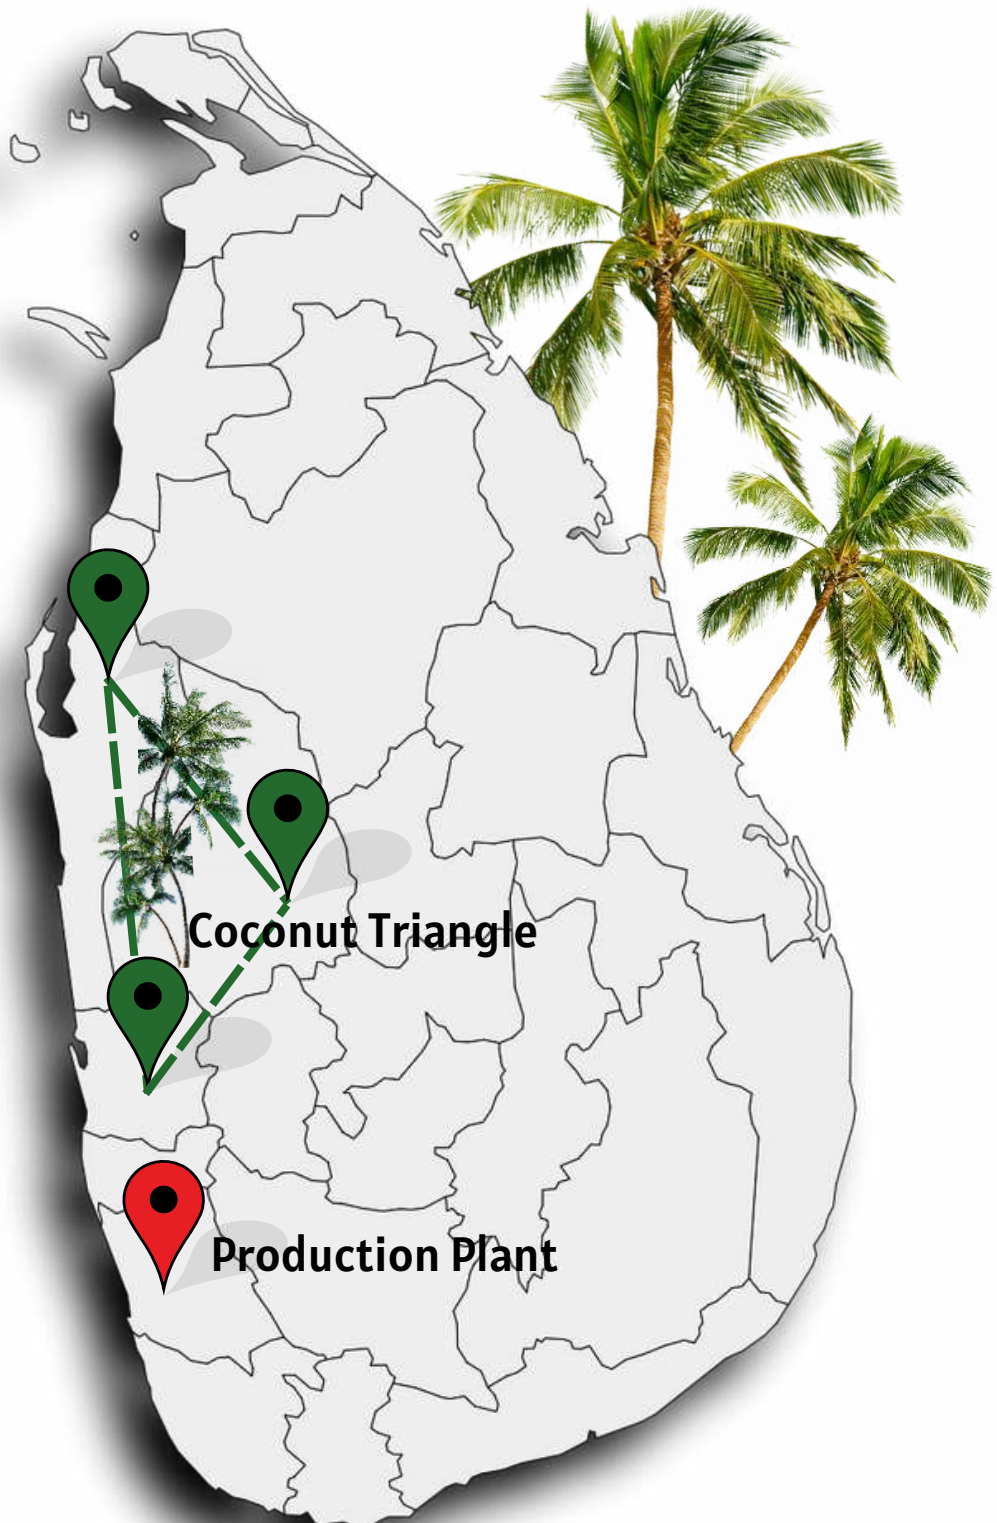

Tropical Paradise Island Of Sri Lanka

Set in the Indian Ocean in South Asia, Sri Lanka is a 65,610 KM² tropical paradise that holds a vast variety of ecosystems and cultural sites including several UNESCO World Heritage sites within a compact location. With a rich history dating back thousands of years Sri Lanka was known as Ceylon, Serendib and Taprobane by visitors of this beautiful island. Sri Lanka is rich with a wide range of ecosystems that allows it to have miles of serene coastal beaches, dry forests and rainforests, foggy hills and mountain ranges, lakes big and small, an abundance of wildlife and hundreds of thousands of acres of tea, coconut and spice plantations making it nature's treasure trove.

In particular the Ceylon Coconut: unique in its rich taste and aroma, is an integral part of Sri Lankan food and culture. All this is due to the special climate and soil that this little island boasts that allows the natural products that it produces to be not only unique in flavour but also world leading in quality.

The humble coconut enjoys a prestigious position in Sri Lanka as it is an essential component of Sri Lankan cuisine, nutrition, and rural livelihood. Every part of the coconut tree can be of some use or benefit to the people; hence it has been termed "Kapruka" which means 'Tree of Life.'

While coconuts are found all over the island nation, plantations are mainly focused in the coconut triangle of Kurungela, Puttlam and Chilaw making Sri Lanka one of the largest coconut producing countries in the world. Current production in the country varies from 2500 – 3000 million nuts annually, while a major portion (nearly 75%) of coconut holdings in Sri Lanka belong to smallholders.

Food Safety & Quality

Nexpo Conversion prides itself in manufacturing Premium Quality Coconut Products in its very own state of the art manufacturing facility in Sri Lanka that is certified to both IFS Food and ISO 22000:2018 Food Safety and Quality Management Systems.

As a responsible manufacturer in the global food supply chain, we are aware of our duty in manufacturing food that is both safe to consume and is of high quality. Being a company that is committed to ensuring both food safety and quality we have implemented a robust Food Safety and Quality Management System in our state-of-the-art production facility that is certified to IFS Food, a GFSI benchmarked internationally recognized food safety and quality standard (Certification Body: SGS Certifications). Our manufacturing facility is also certified to ISO 22000:2018 and HACCP by Bureau Veritas Certifications.

Nexpo products is also certified Halal by the Halal Accreditation Council of Sri Lanka, Kosher by Star K Kosher Certifications and Vegan by Control Union Certifications. Nexpo Organic Products are certified by Control Union Certifications as per European Eco Regulation (Regulation (EEC) No. 834/2007), United States Department of Agriculture (USDA-NOP) and Japanese Agricultural Standard (JAS) Organic Processing Certification Schemes.

We have partnered with sought out members of the farming community and internationally reputed and certified manufacturers to source sustainably grown, harvested and chemically-free raw materials. As a responsible organization we believe in ethical and sustainable business practices and subscribe to SEDEX as a member and is open to conducting SMETA audits upon customer requests.

All the ingredients that go into our products are 100% Natural and GMO-Free. Raw materials, intermediate stages and finished products are all tested in our in-house Quality Control Laboratory for conformity to strict in-house and customer specified standards.

Nexpo Conversion employs a variety of skilled workers from experienced Process Engineers to oversee the production process to Biochemistry and Microbiology graduates to run our on-site Quality Control lab, testing Organoleptic, Chemical and Microbiological parameters of every production batch to ensure high quality standards of Nexpo products. At Nexpo we believe that each individual is responsible for ensuring the food safety and quality of products manufactured and operating a manufacturing process that is environmentally conscious.

Our Capabilities

We are a highly customer focused, manufacturer and exporter of Premium Quality Natural Extracts from Sri Lanka.

Research & Development

Nexpo strongly believes and invests in Product and Technology R & D as a means of improving and expanding its product portfolio and manufacturing process. We are continuously in the process of research and development to gather knowledge and better understand our products, production process and customer needs in order use that knowledge to advance our production technology and develop innovative products. With our expertise and knowledge about our production process we can custom manufacture our products to suit customer requirements.

Our Research and Development team is at the forefront of food technology developments and consistently developing and testing new formulations and products. Our R & D department has state of the art equipment such as GC-MS, LC-MS/MS, a Laboratory scale Spray Dryer and extraction equipment that allow our team to be always engaged in innovating products. The Laboratory scale Spray Dryer Is used to develop new spray dried products before scaling up in the main Plant and carry out experiments on optimizing the spray drying process for various products to improve the product range and spray drying technology in use at Nexpo to ensure that they adhere to strict quality requirements.

Why Choose Nexpo ?

Nexpo products are free from Additional Synthetic Flavoring or Additives.

Nexpo products are made of 100% natural and NON-GMO ingredients, where the natural goodness, exotic aroma and flavour of the coconut is preserved.

Nexpo products are inherently vegan, gluten free and lactose free.

Taste

Nexpo products has the exotic aroma, taste, and flavour of Ceylon Coconut. There is no difference with taste.

Storage Pros

Nexpo Products has a shelf life of minimum 18 months for unopened bags. Product can be stored in an air tight container, either in store cupboard or refrigerator.

Super Convenient

It is a convenient alternative, especially for vegans. Nexpo Products are Vegan, Lactose free, Gluten free and is a ready to use option for any diet including Keto and Paleo.

Multipurpose Applications

Coconut products aren't limited to being a kitchen ingredient alone. It can be used to moisturize the skin, treat sunburns, prevent premature skin aging, treat skin ailments, restore dry and damaged hair, act as a natural conditioner, and promote hair growth.

Health Benefits

- Benefits heart Health
- Promotes Blood Sugar Control
- Helps in Losing Weight
- Promotes Weight Loss
- Nourish and beautify the skin and hair
- Contains powerful antioxidants
- Helps in fighting Alzheimer's, Cancer, and Epilepsy
- Strengthens the immune system
- Keeps you Hydrated
- Prevents premature aging of the skin

Coconut Milk Powder

Nexpo Premium Coconut Milk Powder is prepared from pasteurized milk extract of carefully selected fine and fresh coconuts (*Cocos nucifera*) grown in Sri Lanka using state of the art, proprietary three-stage spray drying technology in our very own IFS Food and ISO 22000 certified manufacturing facility to give you the all the goodness of coconut milk preserving its natural aroma and exotic flavour.

Made from Non-GMO ingredients with No artificial flavours, colours or added preservatives, our premium quality coconut milk powder is Gluten-Free and Lactose-Free. It is a dairy-free ingredient for vegans and lactose-intolerant individuals. Nexpo Coconut Milk Powder can be used straight from the pack or mixed with water to make Coconut Milk or Cream of desired consistency

Storage

Keep away from direct heat sources and high moisture environments.

Ideal storage conditions are at an ambient temperature of 28 °C and a maximum relative humidity of 80%.

After opening keep the contents in an air-tight container preferably in a refrigerator and always use a dry spoon.

Slight lumping upon exposure to lower temperature may occur but returns to its original powder form when re-exposed to room temperature (26 °C to 28 °C).

Directions for Preparation

TO PREPARE MILK - Mix 100g of powder with 400 ml of warm water (35 °C to 40 °C)

TO PREPARE CREAM - Mix 200g of powder with 400 ml of warm water (35 °C to 40 °C)

Shelf Life

Shelf life minimum 18 months in unopened pouches when stored under recommended storage conditions.

Vegan Coffee Creamer

Nexpo Premium Vegan Coffee Creamer, is a dairy free coffee creamer that is made using coconut milk powder as a healthy substitute for dairy coffee creamer, and it taste great in coffee or tea. The MCTs in natural coconut milk powder help with ketone production in the liver, turning extra fat into all-purpose high-energy fuel packets to sustain you throughout the day. Ideal for those on a keto diet.

Made from Non-GMO ingredients with No artificial flavours, colours or added preservatives, our premium vegan coffee creamers are Gluten-Free and Lactose-Free. It is a dairy-free ingredient for vegans and lactose-intolerant individuals.

Storage

Keep away from direct heat sources and high moisture environments.

Ideal storage conditions are at an ambient temperature of 28 °C and a maximum relative humidity of 80%.

Coconut Water Powder

Nexpo Premium Coconut Water Powder is produced out of coconut water of carefully selected Fine and Fresh Coconuts (*Cocos nucifera*) grown in Sri Lanka using a modern three – stage spray drying technology where natural goodness and exotic aroma and flavor of Coconut is preserved. Wet processing and spray drying are done in an IFS Food and ISO 22000: 2018 certified manufacturing plant as per regulations governing both HACCP and GMP under controlled hygienic conditions.

Made from Non-GMO ingredients with No artificial flavours, colorings or added preservatives, Nexpo Coconut Water Powder is free of lactose and gluten, has No added sugar (sugars present are intrinsic sugars) and is readily soluble in water. It is a great all-natural hydration option when simply mixed in water or in shakes, smoothies, and other drinks.

Storage

Nexpo Coconut Water powder should be stored in a clean, cool and dry place under normal room temperature of 28 °C to 32 °C and maximum relative humidity of 80%.

Refrigerate for maximum freshness after opening.

Directions for Preparation

Mix 1 Tbsp of Nexpo Coconut Water Powder into a 250 ml glass of water or add to your favorite juices and smoothies.

Shelf Life

Shelf life minimum 18 months in unopened pouches when stored under recommended storage conditions.

Coconut MCT Oil

Nexpo Coconut MCT Oil is prepared using fresh coconuts sustainably grown and harvested in Sri Lanka to provide with you the best quality products that nature has to offer and is manufactured in an IFS Food and ISO 22000: 2018 certified manufacturing plant as per regulations governing both HACCP and GMP under controlled hygienic conditions.

Nexpo derives its Medium Chain Triglyceride Oil (MCT Oil) from 100% pure Coconut Oil following a proprietary Short Path Molecular Distillation process to give the health benefits of Coconut Medium Chain Triglycerides needed to power up your lifestyle. Nexpo Coconut MCT Oil is prepared using fresh coconuts sustainably grown and harvested in Sri Lanka to provide with you the best quality products that nature has to offer.

Storage

Nexpo Coconut MCT Oil should be stored in a clean, cool and dry place under normal room temperature of 28 °C to 32 °C. After opening product can be refrigerated or stored at room temperature.

Directions for Preparation

Add 1 tablespoon to your coffee, tea, smoothie or shake. Substitute for conventional oils in salad dressings, sauces and cooking.

Shelf Life

Shelf life minimum 18 months in unopened bottles when stored under recommended storage conditions.
